

CURRICULUM VITAE

Name: **Prof. Dimitrios Tsitsigiannis**

Position: **Professor of Plant Pathology, Member of the Board of Directors of Agricultural University of Athens**

Laboratory of Plant Pathology, Department of Crop Science
Agricultural University of Athens

Iera Odos 75, 118 55, Athens, GREECE , E-mail: dimtsi@aua.gr

EDUCATION

- **University of Wisconsin - Madison**, Madison, Wisconsin, USA. Department of Plant Pathology. Graduate Student (Ph.D.) GPA=3.95/4.0.
My PhD was funded from 2000-2002 by the "ICRISAT-International Crops Research Institute for the Semi-Arid Tropics-India and from 2002 to 2004 I received a Crop Protection Graduate Fellowship from Novartis (Syngenta). In July 2004, I received the "Dr. George Washington Carver Award" from the United States National Peanut Board for my achievements on "Strategies to reduce aflatoxin contamination utilizing peanut and *Aspergillus* fatty acid molecules".
- **Agricultural University of Athens, Athens, Greece. B.Sc.** Diploma from Department of Agricultural Biology and Biotechnology (Minor: Plant Pathology). 09/91-09/96. GPA=3.6/4.0. Graduation with Distinction.

PROFESSIONAL RESEARCH EXPERIENCE

- **Member of the Board of Directors** of Agricultural University of Athens, 2023-2027.
- **Director of the Postgraduate Program** of the Department of Crop Science, AUA entitled "Integrated Plant Protection and Environmental Management Systems", 01/09/2021 - today.
- **Director of Plant Protection and Environment** Section, Department of Crop Science, Agricultural University of Athens, 12/2017 – 8/2020
- **Professor of Plant Pathology**, Laboratory of Plant Pathology, Department of Crop Science, Agricultural University of Athens, 02/2022 – today
- **Associate Professor of Plant Pathology**, Laboratory of Plant Pathology, Department of Crop Science, Agricultural University of Athens, 05/2017 – 01/2022
- **Assistant Professor of Plant Pathology**, Laboratory of Plant Pathology, Department of Crop Science, Agricultural University of Athens, 02/2012-04/2017
- **Lecturer of Plant Pathology**, Laboratory of Plant Pathology, Department of Crop Science, Agricultural University of Athens, 06/2007-01/2012
- **Post-Doctoral Research Associate**, The Sainsbury Laboratory, John Innes Centre, Norwich. 01/2005 – 06/2007. Group Leader: Prof. Jonathan D.G. Jones
- **Post-Doctoral Research Associate**, Department of Plant Pathology, University of Wisconsin, Madison. 08/2004 – 12/2004. PI: Dr. Nancy P. Keller
- **Graduate Research Assistant (Ph.D.)**, Department of Plant Pathology, University of Wisconsin, Madison. 01/2001- 07/2004. Thesis Supervisor: Dr. Nancy P. Keller
- **Department of Plant Pathology and Microbiology**, Texas A&M University 09/1999-12/2000. Thesis Supervisor: Dr. Nancy P. Keller

AREAS OF RESEARCH INTEREST

- Novel methods of integrated management of plant diseases
- Development of biological products and plant resistance inducers (yeasts, bacteria, biostimulants, non-toxigenic strains, essential oils) for the control of plant diseases
- Epidemiology and Integrated management of mycotoxigenic fungi and mycotoxins
- Plant-microbe interactions (plant immune system, fungal virulence mechanisms, disease resistance mechanisms)
- Applications of precision agriculture in plant disease prognosis, diagnosis and management systems
- Development of advanced methods for smart diagnosis of plant diseases using spectral imaging techniques, mass spectrometry or thermal sensors.
- Validation and development of prediction models and Decision Support Systems for plant diseases

SELECTED PRIZES, AWARDS AND HONORS

- **Dr. George Washington Carver Award** for excellence in peanut aflatoxin research and service to the community. National Peanut Board. July 2004.
- **Novartis (Syngenta) Crop Protection Graduate Fellowship** 07/02-07/04. Competitive grant that covered salary/benefits for 2 years.
- 2004. Nomination from the International Society for Plant-Microbe Interactions for a Seat on the **Board of Directors of the International Society for Molecular Plant-Microbe Interactions**. The Nomination Committee has identified Dr. Tsitsigiannis as one of 6 candidates internationally.
- **Graduation with Highest Honors** from the Agricultural University of Athens. 1st in Dean's graduation class list. Declaimed the oath in the graduation ceremony (November 1996).
- Recipient every academic year of the **Academic Performance Scholarship** from the National Greek Scholarship Foundation (IKY), Athens, Greece (1991-1995).

CURRENT AND MAJOR GRANTS/PROJECTS:

I have participated and I participate in several R&D projects a) funded by the EU Horizon Europe, H2020, FP5, FP7, LIFE, TEMPUS, Erasmus programmes, COST actions and private companies and b) in several national research projects funded by the National Strategic Reference Framework (NSRF), Ministry of Rural Development and Food, Foundations (J. Latsis Foundation) etc. I am coordinating several national research projects related to integrated management of plant diseases:

1. **STELLA**: Digital technologies for plant health, early detection, territory surveillance and phytosanitary measures. HORIZON-CL6-2023-GOVERNANCE-01-16, 2024-2028. <https://stellapss.eu/> **Coordinator**
2. **FORTUNA**: Future innovation for pesticide use reduction in agriculture. HORIZON-CSA HORIZON Coordination and Support Actions. HORIZON-CL6-2023-FARM2FORK-01-4. 2024-2027. <https://horizon-fortuna.eu/> **Partner**
3. **EUPHRESCO III**: Strengthening phytosanitary research programming and collaboration: from European to global phytosanitary research coordination. HORIZON-WIDERA-2023-ERA-01-01. 2024-2027. <https://www.phrescoglobal.net/#:~:text=Goal,fit%2Dfor%2Dpurpose%20activities> **Partner**
4. **TOP-AGRI-Network**: "Towards zero Pesticide AGRiculture: European Network for sustainability". COST Action. 2022-2026. <https://www.linkedin.com/company/ca21134/posts/?feedView=all> **Partner, WG3 Leader**

5. **GloeControl:** Integrated smart system to control olive anthracnose. Rural Development Programme of Greece 2014-2020. European Agricultural Fund for Rural Development. Ministry of Agriculture and Food, Greece, 2022-2025. **Scientific Coordinator**
6. **GleoliveTreat.** Improvement of olive anthracnose management in Prefecture of Chania. Rural Development Programme of Greece 2014-2020. European Agricultural Fund for Rural Development. Ministry of Agriculture and Food, Greece, 2022-2025. **Partner**
7. **AflaControl:** Integrated management of the problem of aflatoxins in pistachios by applying automatic mechanical sorting system and valorization of commercially unsuitable fruit. Rural Development Programme of Greece 2014-2020. European Agricultural Fund for Rural Development. Ministry of Agriculture and Food, Greece, 2022-2025. **Partner**
8. **InnovInAgri:** Support actions to strengthen entrepreneurship, innovation and maturation for the utilization of research activity and new products and services developed at the Agricultural University of Athens. Ministry of Development and Investments, Greece, 2022-2023. **Partner**
9. **AgriBooster:** The 1st business accelerator of the Agricultural University of Athens. Support actions to strengthen entrepreneurship, innovation and maturation for the utilization of research activity and new products and services developed at the Agricultural University of Athens <https://agribooster.aua.gr/> Ministry of Development and Investments, Greece, 2022-2023. **Partner**
10. **ExoPeach2Health:** (RESEARCH–CREATE-INNOVATE national call). “Novel plant protection approaches and application of -omics technologies for optimization of integrated management of peach leaf curl disease”. General Secretariat for Research and Technology - Greece. 2021-2023. Total Budget 686.130 €, **Partner**
11. **IKOPROTECTA:** (RESEARCH–CREATE-INNOVATE national call). “Agricultural composted products as plant growth and protection regulators”. General Secretariat for Research and Technology - Greece. 2020-2023. Total Budget 545.256,00€ **Coordinator**
12. **AgROBOfood:** (H2020-DT-2018-1). “Business-Oriented Support to the European Robotics and Agri-food Sector, towards a network of Digital Innovation Hubs in Robotics”. The agROBOfood project, a consortium of 39 partners aims to accelerate the sector’s digital transformation through the adoption of robotic technologies. To boost the uptake of robotic solutions, it will establish a sustainable network of digital innovation hubs (DIHs). At the heart of the project are innovation experiments (IEs) that will be organised and monitored by the DIHs. 2018-2021. <https://agrobfood.eu/project/> **Partner**
13. **OPTIMA:** (H2020-SFS-17-2017). “Optimised Integrated Pest Management for precise detection and control of plant diseases in perennial crops and open-field vegetables”. Development of an integrated disease management system (IPM) for vineyards, apple orchards and carrots that includes bio- and chemical PPPs, disease prediction models, spectral early disease detection systems and precision spraying techniques. <http://optima-h2020.eu/el/home-5/> Total Budget 3.426.000€, AUA budget 516.000 €. 2018-2021. **Co-Coordinator**
14. **OCHRAVINE CONTROL:** (H2020-RISE project). “Implementation of integrated and innovative precision agriculture management strategies to reduce the occurrence of ochratoxins along the vine value chain products: grapes, raisins/currants and wine”. The project will offer an integrated smart ICT solution (*OchraVine Control DSS*) and will allow prediction and monitoring at pre- and post-harvest level to control *Aspergillus* infection and OTA contamination in vine cultivation by combining epidemiological data, biological and chemical management strategies, post-harvest technologies and precision agriculture tools. 2018-2023. <https://www.ochravine.eu/> General Secretariat for Research and Technology - Greece. Total Budget 1.183.500€, AUA budget 310.500 € **Coordinator.**
15. **OENOVATION:** “Exploitation of new natural microbial flora from Greek origin amenable for the production of high-quality wines”. HSR Technology 2018-2023. **Partner**

16. **HarISA**: “Harmonization and Innovation in PhD Study Programs for Plant Health in Sustainable Agriculture –”. <https://harisa.site123.me/> ERASMUS+ CBHE project. **Local Coordinator**.
17. **APOLLO (H2020 project, Innovation Actions)**. “Bringing the benefits of precision agriculture to smallholder farmer”. The project aims to develop a market-ready platform of agricultural advisory services focused primarily, but not exclusively, at smallholder farmers in Europe. <http://apollo-h2020.eu/> **Senior Scientist**
18. **Biological and chemical management of aflatoxins in pistachios**. Greek Ministry of Rural Development and Food. 2015-2016. **Coordinator**
19. **Detection of the mycotoxigenic fungi *Aspergillus spp.* and *Fusarium spp.* and quantification of aflatoxins and fumonisins in corn fields in Thessaly and Macedonia (2014-2015)** Greek Ministry of Rural Development and Food. **Coordinator**
20. **Detection of the mycotoxigenic fungi *Aspergillus spp.* and quantification of aflatoxins in pistachio orchards in Fthiotida (2017-2018)**. Greek Ministry of Rural Development and Food. **Coordinator**
21. **Mobile Disease Diagnosis - MobDi2** (Task Addressed: T421. Green House Management & Control), Future Internet Business Collaboration Networks in Agri-Food, Transport and Logistics – FiSpace 604123 - Large-scale Integrated Project (IP). MOBICS. **Senior Scientist**
22. **SustUse Fumigants** - Sustainable use of chemical fumigants for the control of soil-borne pathogens in the horticultural sector. LIFE+ Environment Policy and Governance 2008, LIFE08 ENV/IT/000432. **Senior Scientist (2010-2012)**
23. **BIOCON** - Biological Control of soilborne pathogens: a seed to field approach. Bilateral grant Greece-Germany. HSR Technology 2014-2015
24. **International Joint Master Degree in Plant Medicine**, Project “Tempus IV”, 2009, 158875-Tempus-1-IT-Tempus-JPCR **Senior Scientist (2010-2013)**

PARTICIPATION IN CONFERENCES, SCIENTIFIC MEETINGS AND WORKSHOPS

Participation in >75 International and >85 National Conferences, Scientific Meetings and Workshops with >200 presentations. Plenary speaker in 2 International and 3 National Conferences. Invited speaker >45 times in international meetings and Universities.

Selected Invited Presentations in International Conferences

1. **Tsitsigiannis D.I.** (2024). Digital technologies for plant health, early detection, territory surveillance and phytosanitary measures. *XX International Plant Protection Congress*, Athens, Greece, 1-4 July.
2. **Tsitsigiannis D.I.** (2022) Integrated pest management smart technologies to precisely detect and control plant diseases. *16th Congress of the Mediterranean Phytopathological Union*, Limassol, Cyprus, 4-8 April.
3. **Tsitsigiannis D.I.** (2019) OPTIMA: Optimised Integrated Pest Management for precise detection and control of plant diseases in perennial crops and open-field vegetables. *XIX International Plant Protection Congress 2019 (IPPC2019)*. Hyderabad, India, 10-14 Nov.
4. **Tsitsigiannis D.I.** (2017). Integrated management strategies for prevention and control of mycotoxins. *15th Congress of Mediterranean Phytopathological Union*, "Plant health sustaining Mediterranean Ecosystems", Córdoba, Spain, June 20-23.
5. Georgiadou M., Agoritsis S.P., Vichou K., Vardouniotis G., Yanniotis S., Paplomatas E.J., Cotty P.J., **Tsitsigiannis D.I.** (2013). Genetic and molecular characterization and evaluation of Greek non-toxicogenic isolations of *Aspergillus* as potential biocontrol agents against aflatoxigenic fungi. *ISM-MycoRed*. Global Mycotoxin Reduction Strategies 27-31 May– Martina Franca, Apulia, Italy.
6. **D.I. Tsitsigiannis**, Georgiadou M., Agoritsis S., Zakyntinos G., Varzakas T.H., Tjamos S., Antoniou P., Dimakopoulou M., Karnavas G., Paplomatas E., Gianniotis S. and Tjamos E.C. 2010. Ecology, epidemiology and control of *Aspergillus* spp. in pistachio orchards in Greece. *13th Congress of the Mediterranean Phytopathological Union*, 20-25 June 2010, Rome, Italy. *Petria* 20:95-96.

7. **D.I. Tsitsigiannis**, M. Brodhagen and N. Keller (2007). Oxylipins act as quorum sensing molecules and mediate the *Aspergillus*-seed dialogue. *13th International Congress on Molecular Plant Microbe Interactions*, Sorrento, Italy, 21-27 July.
8. **D.I. Tsitsigiannis** and N.P. Keller (2003). Lipid mediated signalling in the *Aspergillus*/seed interaction. *8th Intern. Congress of Plant Pathology*. 2-7 February. Christchurch, New Zealand.

CONFERENCE - MEETING ORGANIZATIONS

- Member of the Organization Committee of the *XX International Plant Protection Congress*, Athens, Greece, 1-4 July.
- Member of the Organization Committee of the *16th International Congress on Molecular Plant Microbe Interactions*, 2014, 6-10 July, Rhodes, Greece.
- Member of the Organization Committee of the *10th International Verticillium Symposium*, 2009. Corfu Island, Greece, 16-20 November.
- General Secretary of the Organization Committee of the *13th Hellenic Phytopathological Conference* in 2008, Dalamanara, 7-10 October.

PROFESSIONAL MEMBERSHIPS – OTHER RELEVANT EXPERTISE

- **President** of the Mediterranean Phytopathological Union (MPU).
- Reviewer in more than 20 international journals and Senior Editor of the journals *European Journal of Plant Pathology*, *Phytopathologia Mediterranea*, *Heliyon* and *Hellenic Plant Protection Journal*.
- Reviewer of many research proposals for funding (Horizon 2020, COST Actions, European Cooperation in Science and Technology, NSF Post-Doctoral Research Grant, USA, Austrian Science Fund, Freja applications-University of Copenhagen, South Africa's National Research Foundation, State Scholarships Foundation (IKY), Hellenic Foundation for Research and Innovation).
- Member of the International Mycotoxicology Society, the Hellenic, the Mediterranean, the British and the American Phytopathological Societies, the International Society for Molecular Plant Microbe Interactions, the European Plant Science Organisation (EPSO).
- Member of the Board of the Hellenic Phytopathological Society (HPS) and the Hellenic Society of Phytiatry.
- Actively involved in vocational education training of farmers, young and adult people who want to get involved professionally in agriculture, through short-term seminars held in AUA or in Institute of Agricultural Science (www.ige.gr). Significant experience in management and coordination of training courses through the implementation of LIFE+ and TEMPUS projects.

RESEARCH GROUP

I am leading a research group of 4 PhD post-graduate, 1 Research Scientist, 12 MSc and 4 undergraduate students working in several research projects including novel methods of integrated management of plant diseases, epidemiology and management of mycotoxigenic fungi and mycotoxins, modern plant disease diagnosis methodologies, disease resistance mechanisms, fungicide resistance, studies in plant microbe interactions etc.
